EMAIL SCAM NOTICE

Dear Valued Customer

A letter arrived in our office this morning from our Oversea correspondence bank asking us to confirm the appointment of Hightech Electronics Canada who claimed to have been given a power of attorney by your office to receive your fund on your behalf.

The said letter stated that you the beneficiary has legally opted for money transfer via a diplomatic security company in Europe to your billing address.

At this juncture, we make this inquiry to know if you are aware of this development or given such power of attorney to the so called Consignee to receive on your behalf a part payment of \$5,755,889 in cash which was formerly programmed to be transferred to your designated account.

We also request that you confirm this order within 48 hours to enable us start remittance and also give the Halifax bank confirmation. If you have not given such permission please contact us immediately.
Yours faithfully,

H. peters
